#### Substitutions

Substitutions in Merino and Poll Merino classes may be made in the same class and will need to be received by C Bayliss prior to 9am on the Tuesday immediately preceding the Show.

#### Wool Quality

Wool quality of all sheep exhibited will be determined by the wool test results not their visual counts. ADD IN THE MICRON RANGES FOR MERINO.

**Shearing**

Each sheep (other than those entered in March Shorn Classes) may be shorn before, on, or after the fifteenth day of August of the year preceding the Royal Adelaide Show at which it is to be exhibited, but at the time of inspection of such sheep, it shall carry only such wool as having regard to natural growth, and shall not exceed in length the equivalent of 12.5 mm as at 15 August.

An Inspection Committee, as is hereinafter mentioned, shall inspect all sheep to be exhibited in all classes other than under 1½ years old. This inspection shall be made by 22 September preceding the Royal Adelaide Show. The intending exhibitor shall be responsible for arranging the inspection and seeing that it is carried out.

If any sheep is inspected after 15 August of the year preceding the show, the Inspection Committee shall allow a growth at the rate of one millimeter per three days with a 30 day cutoff date for wool length being 15 September, with a maximum allowable length of 22.5 mm as at 15 September preceding such Show. Sheep inspected after 15 September may be late tagged to the maximum allowable length of 22.5 mm.

No sheep being 18 months or over at the commencement of the said Royal Adelaide Show shall be eligible for exhibition at that Show unless it bears the Association's inspection tag corresponding with the Certificate of Inspection.

Any sheep under 18 months shall not be eligible for Championship or Grand Championship awards unless shorn and tagged in accordance with the shearing regulations.

**Shearing – March Shorn Classes**

The conditions for March Shorn classes are exactly the same as above with the exception that sheep may be shorn before, on or after 1 March of the current year, but at the time of inspection of such sheep it shall carry such wool as having regard to natural growth and shall not exceed in length the equivalent of 12.5 mm as at 1 March.

If any sheep is inspected after 1 March of the current year, the Inspection Committee shall allow a growth at the rate of one millimeter per three days, with a 30 day cut off date for wool length being 1 April, with a maximum allowable length of 22.5 mm as at 1 April of the current year. Sheep inspected after 1 April may be late tagged to the maximum allowable length of 22.5 mm with this inspection being made by 9 April preceding such Royal Adelaide Show.

**Inspection of Sheep**

All sheep must be inspected by a Committee comprising two Inspectors, both of whom shall be Members of the South Australian Stud Merino Sheepbreeders' Association contained in a Panel of Member inspectors filed by the Association with the Royal Agricultural and Horticultural Society of South Australia. No such Committee Member shall bear any relationship to the owner or have any financial interest in any flock submitted for inspection.

No members of the Inspection Committee shall sign an Inspection Certificate until he has seen one member of the Committee actually measure the length of the wool of each of the sheep mentioned in the Inspection Certificate, with an approved measuring device and is satisfied that the wool is of the requisite length.

After each such inspection the Committee must affix an ear tag in the unregistered ear of the sheep inspected. With the permission of the Committee the owner may affix the tag. To enable the ear tags to be affixed, the Committee may authorise the owner or one of their number to punch the ear of the sheep.

Any ear tag affixed by or with the permission of the Inspection Committee shall be made of approved material and shall bear approved lettering on one side - together with the year of inspection and on the other side shall be branded with an identification number and letter.

Please see the start of the Schedule for OJD and Brucellosis Policy for Show. The full details can also be found at [www.theshow.com.au/competition](http://www.theshow.com.au/competition) details.

**Certificate of Inspection**

After inspection the Committee shall issue an Inspection Certificate covering all sheep inspected by them. This Certificate shall be in the form prescribed by the Association and shall be signed in triplicate by each member of the Inspection Committee; one copy (yellow) of this Inspection Certificate shall be handed to the owner of the sheep inspected, the other two copies shall be forwarded to the Executive Officer of the Association who will hand one copy to the Royal Agricultural and Horticultural Society by 15 November and 30 June respectively.

A copy of the shearing certificate of inspection must accompany interstate tagged entries.

Every such Inspection Certificate shall contain particulars of the following:

1. Date of inspection.
  2. Date of shearing as certified by owner.
  3. Age of each sheep.
  4. The registered ear mark of each sheep.
  5. Any brands, ear marks or tattoo marks.
  6. The letters and numbers of the Association's official ear tags.
  7. Horn brands or other distinguishing marks.
  8. Details of ear tags destroyed by Inspection Committee.
- Any other matters which the Committee considers appropriate to be brought to the notice of the Association.
