SHOW ETHICS

The Dairy Section of the RA&HS subscribes fully to the National Code of Ethics devised by the All Dairy Breeds Show Ring Committee (ADBSRC). The ADBSRC consists of representatives of all Australian Dairy Breeds and has the primary purpose of developing a national code of show ring ethics to ensure dairy animals presented for exhibition will be in their natural conformation and structure, free from modification

caused by unethical fitting practices. Details of the Code of Ethics are fully described in the document All Dairy Breeds National Show Ring Code of Ethics - Dated October 2021. It is the responsibility of all exhibitors to read and familiarise themselves with the Code of Ethics regulations. They are available from the RA&HS website under the Dairy Cattle Competition Information. It is the Exhibitors responsibility to ensure that any animal in their ownership or their representatives, associated with the preparation and exhibition of their animal is not subject to any violation of the Code of Ethics prior to or during exhibition and whilst on the Adelaide Showground.

The following regulations will be particularly highlighted for the 2025 Royal Show.

All in milk entries will be subjected to an ultra sound udder scan prior to the cow entering the ring for the individual breed class and will not be permitted to return to the Pavilion after scanning, for the purpose of detecting any unethical manipulation of the udder or improper fitting practices, such as over filling and over bagging of cows udders. Any cow found to be showing high levels of stress, must be milked out immediately and will be disqualified from the ring.

Scanning receipt to be presented to the steward upon entering the ring.

All animals may be subject to measuring of top line hair. This will be done randomly as cattle enter the judging ring and top line hair shall not exceed 3.8 cm in height.

Teat Setting is a breach of the rules and regulations and any offending animal detected as a first offence is to be withdrawn immediately from all eligible classes in that current Royal Adelaide Show.

A second breach at the current Show or subsequent Shows by the exhibitor of the teat setting rules would result in the offending animal being withdrawn immediately from all eligible classes at the current Show and the exhibitor then banned from showing any animals at the Royal Adelaide Show the following year.

A third breach at the current Show or subsequent Shows by the exhibitor would then see the exhibitor banned from the Royal Adelaide Show for five years.

- Infectious or problem-milk cows MUST be milked on either of the three units outside the Exhibition Dairy.
- Cows with milk unfit for consumption and are infectious to be milked on red side.
- Cows with milk unfit for consumption but not infectious to be milked outside on Blue Side (non infectious).
- Cows may be individually sampled and tested for components, cell count and antibiotic residues.
- Proceeds from milk may be credited to exhibitors at the discretion of the Society.
- Treatment of cow's teats and udders during milking must be such that contamination of milk is avoided and disease spread is minimised. It is preferable that teats are sprayed with iodine based solution after milking.
- Exhibitors are encouraged to pre-spray and wipe clean udders before attaching milking machine to cows. Note: it is ideal to allow a contact time of one minute as a minimum before wiping with clean paper towel.
- Rugs must be off cattle at all milkings
- Dress – ALL PEOPLE WORKING IN THE PIT MUST BE PROPERLY ATTIRED.
- All people in the pit must also wear an apron during afternoon milking. Thongs or bare feet are not allowed under any circumstances. The suitability of attire worn must ensure the appropriate image is presented for the benefit of the Society and Dairy Industry.
- The dairy will close for an hour twice daily after morning and evening milking for cleaning. Times will be advised to exhibitors and the dairy will not be available for milking during those times.
- Exhibitors are reminded that they should leave the dairy clean after use if not during a normal milking time. Cleaning of the milking machine will be by dairy staff but hosing out of the dairy is encouraged. The milking machine should not be left running if no cows are being milked.
- Dairy will close at the discretion of the Dairy Manager.
- Order of milking will be determined by Dairy Management.
- If an exhibitor misses their allocated milking time, they will be rescheduled to follow the last scheduled group for that milking.
- Disputes will be referred to the Dairy Manager and will be resolved by the Dairy Cattle & Pig Committee.
- No cow treatments should be administered in the dairy, this means injections and udder infusions, the use of teat sprays and udder creams is acceptable.
- The consumption of alcohol and drugs and smoking is banned in and near the dairy.

COSTS AND DISPOSAL OF CONTAMINATED MILK

As this complex is a registered dairy the same conditions apply as with on-farm dairies – i.e. any exhibitors who supply milk that contaminates a bulk tank or a tanker load of milk will be held financially responsible for:

- The cost of collection and transport of the milk to the processing factory, including a replacement load of market milk.
- Value of the milk lost due to contamination.
- Cost of disposing of the contaminated milk.

Disposal costs will vary, and producers will be given the option of disposing of the milk on their own properties. Contaminated milk is considered to be any milk containing antibiotic, colostrum, blood or strong taint or smell.

DUTY OF CARE

It is important to ensure your own safety and that of all other site personnel, visitors and general public at the Adelaide Showground.

All exhibitors have a "Duty of Care" to avoid exposing themselves or other people to situations which could lead to injury. This "Duty of Care" extends to the prevention of damage to property.

LIABILITY AND INDEMNITY

1. Release

Entry to and remaining on the Showground is entirely at the risk of the Exhibitor and to the maximum extent permitted by law, the Exhibitor releases the Society (which term includes in this clause the Society's officers, employees, members and agents), from all claims and demands of every kind resulting from any accident, damage or injury occurring at the Showground, and without limitation, the Exhibitor acknowledges:

- a) the Society has no responsibility or liability for any loss, damage or injury to or caused by any Exhibit;
- b) the Society has no responsibility or liability for any loss, damage or injury to or caused by any Exhibitor, his or her family, invitees and Agents;
- c) the Society has no responsibility or liability for any loss, damage or injury to a Motor Vehicle or any of its contents whilst it is located on the Showground; and
- d) without limiting Regulations 1 (a), 1 (b) and (c) above, the Society has no responsibility or liability for any loss, damage or injury resulting from the sale, treatment, failure to treat, destruction, disposal or other dealing with any Exhibit, or for loss, damage or injury to any personal belongings, equipment or property brought onto the Showground.

2. Indemnity

To the maximum extent permitted by law, the Exhibitor must indemnify and keep indemnified the Society and its officers,

employees, members and agents from and against all actions, claims, demands, losses, damages, costs, expenses and liabilities including without limitation, consequential loss and loss of profits for which the Society is or may be or become liable in respect of or arising from:

- a) loss, damage or injury to any person in connection with the Exhibit or the relevant Event;
- b) without limiting Regulation 2(a), loss, damage or injury to any other Exhibit or Exhibitor, his or her family, invitees, Agents, or to the property of the Society, or its members, or to the general public, caused or contributed to or by any act or omission of an Exhibit of the Exhibitor or by the Exhibitor, his or her family, invitees or Agents; and
- c) without limiting Regulation 2(a), loss, damage or injury to the Exhibit, or the Exhibitor, his or her family, invitees, or Agents caused or contributed by an act or omission of an Exhibit of the Exhibitor or by the transportation, feeding or housing of an Exhibit of the Exhibitor.

3. Removal from Showground

Without prejudice to any other provision in these Regulations, where the Society, its officers, employees, members or agents removes an Exhibit, or causes an Exhibit to be removed from the Showground, the Exhibit is removed or caused to be removed entirely at the risk of the Exhibitor. The person or persons removing the Exhibit will be deemed to be the agent of the Exhibitor, and his or her acts and omissions will be deemed to be the acts and omissions of the Exhibitor.

4. Insurance

The Society will arrange Animal Exhibitors Public Liability insurance cover for all Exhibitors of Exhibits being animals. The Exhibitor is bound by the terms and conditions of this insurance and by Statutory Duties as defined under the Insurance Contracts Act (1984). Details of the Animal Exhibitors Public Liability insurance are set out in the Relevant Schedule. The Society does not insure first party loss, damage or injury to Exhibits, and Exhibitors should consider purchasing insurance if required.

5. Personal effects

The Society has no responsibility or liability for any loss or damage caused to personal belongings, equipment or property which is brought onto the Showground by an Exhibitor, his or her family, invitees or Agents.
