OPEN & JUNIOR COOKERY

What the Judges look for and some general guidelines.

Judges cut and taste every entry

Cakes and pastries

- Presentation, general appearance, colour, texture, evenness of appearance, good flavour, according to type.
- Try to avoid rack marks by putting item on Glad Bake or a tea towel to cool.
- A minimum amount of icing should be used when required (cakes should be iced cold, except for Jubilee Cakes).
- A decoration is any addition on or in the icing and includes decorative swirls and piping. There are not to be any identifying marks on the icing.
- Judges can tell if packet cakes have been entered in wrong classes.
- Try not to use dark trays or tins - anodised tins make cakes dark. Shiny, clean aluminum tins are the best choice.

Pastries

- Select the correct choice of pastry for the category
- Even glazing, well-sealed and filled
- Good colour and texture on top and bottom.

Breads

- No bread mixes.
- Good volume, even rise, thin crisp golden outer crust, fine moist texture.
- Good crumb, even distribution of grain.

Scones

- The scones should be approximately 5 cm in diameter.
- Well, risen, straight side, thin golden crust top and bottom, minimal flour on base.
- Fine, moist texture, good crumb, good flavour according to type.
- Optional to glaze.

Muffins

- The texture should be between that of a cake and a scone.
- Baked in muffin pans, no paper cases, well risen, good colour, moist.
- Well flavoured and even in shape.

Anzac biscuits

- Should snap when broken. Deep golden colour.
- Should be evenly mixed with no evidence of undissolved soda.
- Even size and shape/not over size.

Cream Puffs

- Thin golden crust, well risen, light, no moist centres.

Chocolate crackles (Junior Section)

- Ingredients evenly mixed.
- The copha should be cooled slightly before it is added to the dry ingredients.
- 5 cm size in patty pans.

OPEN COOKERY

Entrants may bake for any Open class using the ingredients they use at home i.e. dairy free, gluten free etc. If these ingredients are used, please alert the judge by supplying an ingredients list for the exhibits. This excludes any set recipes.

Open Cookery entries must be prepared and cooked in the home kitchen. An exhibitor in cookery is not a professional (i.e.) a person who does not earn an income from cookery.

Professional Cooks using equipment at their place of work (and have an ABN) are encouraged to enter the Professional Baking Competition.

The RA&HS reserves the right to dispose of cookery exhibits that ferment, show signs of mold or at risk of contaminating other exhibits.

Judges are empowered to cut any exhibit, except for those exhibited for icing purposes only.

What the Judges look for and some general guidelines.

Judges cut and taste every entry

CAKES AND PASTRIES

- Presentation, general appearance, colour, texture, evenness of appearance, good flavour, according to type.
- Try to avoid rack marks by putting item on Glad Bake or a tea towel to cool.
- Minimal amount of icing should be used when required (cakes should be iced cold, except for Jubilee Cakes).
- A decoration is any addition placed on top of the icing, including piping.
- Judges can tell if packet cakes have been entered in wrong classes
- Try not to use dark trays or tins - anodised tins make cakes dark. Shiny, clean aluminium tins are the best choice

PASTRIES

- Select the correct choice of pastry for the category.
- Even glazing, well-sealed and filled.
- Good colour and texture on top and bottom.

BREADS

- No bread mixes

- Fine, moist texture, good crumb, good flavour according to type.

MUFFINS

- The texture should be between that of a cake and a scone.
- Baked in muffin pans, no paper cases, well risen, good colour, moist.
- Well flavoured and even in shape.

ANZAC BISCUITS

JAMS AND PRESERVES

OPEN & JUNIOR JAMS AND PRESERVES

General Guidelines for Exhibitors

This section showcases the heritage of preserving practices that have been used over the centuries. Jams, preserves, chutneys and pickles were made to ensure a regular food supply by the storage of an abundance of fruit and vegetables available during a good season. Preserving is about concentrating sugars for jams, using vinegar for chutneys, relishes, sauces and pickles, preserving in oils and drying of the fruits and vegetables for the lean seasons and when out-of-season. The colour of the product depends on the fruit and the level of cooking, but the darker products show a more traditional cooking method.

The following points will be taken into consideration:

- Clean jars, plain labels with no commercial or personal identification.
- Correct size of container.
- Colour and flavour according to type.
- Jars and bottles sealed only with lids or cellophane.
- Attractively presented.

Pickles and Bottled Fruits

- Even size, good quality, clarity.
- Good preparation in peeling and cutting according to type.
- Onions pickled all the way through.
- Attractively arranged in container.

Chutneys and Relishes

Are made from fruits and/ or vegetables and contain pieces of fruit and/ or vegetables in the product. The addition of vinegar is the most important factor and this ingredient preserves the product. The addition of sugar and spices balances the vinegar flavour and generally makes the product tasty. The product should have a spoonable consistency and not show signs of too much moisture weeping around the product in the jar or on a plate.

- Spreadable consistency, correct preparation of fruit and vegetables eg tomatoes peeled.

Sauces

Are much like chutneys. Whether a sauce should have tiny chunks of fruit and/or vegetables, or contain seeds, is a personal choice. They should be pourable from the bottle and not too thin. Consider where the particular sauces are used and whether they would be acceptable with seeds or small chunks.

- Correct pourable consistency, no separation.

Spreads

- Spreadable consistency, no curdling.

Jams and Marmalades

Jams should be made from fruit and contain pieces of fruit. They should have a gelled structure, either naturally or by using added

pectin. A balance of sweetness and acidity aids the enjoyment of the product. For example, strawberry jam will have more of an acidic taste when compared to fig jam because the fresh fruit itself reflects this.

Marmalades should have pieces of peel which are edible. The judge will consider if a reasonable attempt has been made to use the whole fruit so that some juice and whole fruit is in the product. Marmalade is normally a little transparent. There should be a balance of acidity and sweetness although there is a Sweet Marmalade. They should have a gelled structure, either naturally or with added pectin.

- Spreadable consistency, even distribution of fruit, seed and peel according to type.
- Clarity (marmalades).
- No crystallisation.

Jellies

Should be made from the strained juice of cooked fruits and sugar, and contain no pieces of fruit. They should have a gelled structure either naturally or with added pectin. A balance of sweetness and acidity aids in the enjoyment of the product. They can be made from the extracted juice of the fruit, or from the water extraction of the fruit as with quinces when the fruit is boiled in water to obtain colour and flavour and the resultant 'juice' makes the jelly.

- Clarity and correct consistency. Containing no fruit pieces.

JAMS AND PRESERVES

All Jams and Preserves exhibits **not collected** on Tuesday 14 September will be disposed of by the Society. **Lemon Curd or empty jars** will NOT be returned. The RA&HS reserves the right to dispose of jam and preserve exhibits that ferment, show signs of mould or at risk of contaminating other exhibits.

Should space permit. all entries in Jams and Preserves will remain on exhibition throughout the duration of the Show.

Exhibitors are restricted to one entry per class where the class is for a single variety. Where the class describes a general class, the competitor is permitted two entries of different varieties.i.e. berry jam, one entry of strawberry jam and one entry of raspberry jam.

CONDITIONS OF ENTRY:
